PROFESSIONAL SUMMARY

Python Developer and Cloud Engineer with hands-on experience delivering full stack applications and automation tooling on Microsoft Azure, accelerated through GenAI assisted development. Seeking to apply this skill set toward building reliable, scalable, AI-driven applications.

TECHNICAL SKILLS

Languages: Python, C, C++

Web / Full-Stack: HTML, CSS, JavaScript, React, Node.js, Express, full-stack development

Cloud & DevOps: Microsoft Azure, GitHub Actions CI/CD, SharePoint Online, One Drive for Business

Data & Databases: MySQL, Azure SQL

AI / GenAI: Prompt engineering, GenAI-assisted development, AI-assisted scripting

PROFESSIONAL EXPERIENCE

Programmer Analyst | **Cognizant Technology Solutions** | Chennai

Jan 2025 – Present

- **Enterprise Migration Project (Google Workspace to Microsoft 365)**
Migration of 296 TB data across 80,000 users from Google My Drive and Shared Drives to OneDrive and SharePoint Online using Microsoft Migration Manager, including conversion of 10,000 Google Forms to Microsoft Forms.
- **Migration Notification Automation Tool (JavaScript, Node.js, Power Automate, Groq AI — Full-Stack)**
Built an end-to-end automation tool for enterprise Microsoft 365 migrations that parses Migration Manager ZIP reports, generates color-coded Excel breakdowns, and triggers personalized Outlook notifications via Power Automate. Integrated a Groq powered AI chatbot for real-time migration error analysis and troubleshooting guidance. Reduced manual IT notification effort by 80% across 100+ users per migration cycle.
- **ScanAnalyzer (JavaScript, Power Platform, SharePoint — Full-Stack)**
Developed a browser-based migration scan analysis tool for the enterprise project that instantly parses Microsoft Migration Manager Scan reports and generates per-user data breakdowns.
- **Xerox DocuShare to SharePoint Online Migration**
Executed a 6.7 TB enterprise content migration from Xerox DocuShare to SharePoint Online using the Tzunami migration tool, delivering the first 1 TB in 6 weeks while preserving full metadata, version history, and permission integrity.
- **Migration Acceleration Toolkit (MAT)**
Designed and deployed a full-stack Azure application (Python) in a 10-day sprint to streamline migration workflows, cutting manual migration effort by 80%.
- **ForecastAI — Revenue Forecast Management App**
Built an enterprise revenue forecasting application featuring CSV import and validation, a multi-level approval workflow (Practice Lead → Head), interactive data visualizations, and automated Outlook notifications via Microsoft Graph.
Deployed on Azure Static Web Apps and App Service with a CI/CD pipeline via GitHub Actions.
- **GenAI-Driven Productivity**
Leveraged GenAI and prompt engineering tools (Gemini in VS Code, Claude, GitHub Copilot) to automate repetitive engineering tasks and accelerate debugging across projects.

EDUCATION

B.E. — Electronics & Communication Engineering **9.75 CGPA**

Sathyabama Institute of Science & Technology · 2021–2025

CERTIFICATIONS

- Microsoft : MS-900, AZ-900, MS-700, AB-900, AB-730, GH-300
- Anthropic : Claude Certified Architect

ACHIEVEMENTS

- Gold Medalist — B.E. ECE, Sathyabama Institute of Science & Technology.
- Chancellor's Scholarship 2024 — ECE Department Topper · ₹37,500 prize money (Jul 2024).
- Certificate of Excellence — 9.85 CGPA, ECE Topper · ₹25,000 prize money (Mar 2023).
- 80% effort reduction delivered via the MAT toolkit on a 6.7 TB enterprise Azure migration.
